France- Atlanta 2011 : Georgia Tech Lorraine : Enabling US-French Cooperation in R&D and in Higher Education

Date de mise en ligne : Wednesday July 27, 2011

Description :

The Georgia Institute of Technology will host French and American leaders in higher education and R&D to share ideas and experiences in transatlantic cooperation. The Georgia Tech Lorraine campus in France enables such innovative partnerships, for instance through the Georgia Tech-CNRS Unité Mixte Internationale and the Institute Lafayette. Participants will explore concrete ways to further strengthen US-French cooperation.
