Tara Oceans is an exceptional three-year, nonprofit, marine expedition on a 118-foot schooner.

The goal of this expedition is to study the planktonic ecosystems, how they interact, and their environmental impact.

The Embassy of France’s Office of Science and Technology in collaboration with Tara Expeditions invites you to a presentation and screening marking near conclusion of a 30 month scientific voyage to distant seas and oceans.

FRIDAY, FEBRUARY 10TH AT 6.30PM

Following presentations of the expedition and its discoveries by Dr. Eric Karsenti, Scientific director of Tara Oceans, The Big Bloom will be screened.

A cocktail reception will conclude the program.

Kindly hosted by
MAISON FRANÇAISE
4101 RESERVOIR ROAD, NW
WASHINGTON DC 20007
