POSTER SESSION – Call for applications

Precision Medicine & New Technologies: Transforming Clinical Research

WHEN

February 9, 2016
12:00 – 2:00 pm

WHERE

MIT Media Lab, 6th floor
75 Amherst St, Cambridge, MA 02139

CALL FOR POSTERS

The Office for Science and Technology of the Embassy of France in the United States and GLOBAL CARE Initiative invite students, faculty members and researchers from public institutions or private companies to submit posters describing their recent research in the field of Precision Medicine. Posters may address any aspect of precision medicine research, from basic science to late clinical stages, from therapeutic areas such as infectious diseases, oncology, CNS diseases and ophthalmology to diagnostic or imaging modalities, to data treatment or analysis and to ethical or societal issues.

Selected posters will be presented during the French American Innovation Day Conference to be held at the MIT Media Lab on February 9 and 10, 2016. Deadline for submission is February 1, 2016. More information at http://faid2016.france-science.org/

PRIZES

Conference attendees will vote to determine the best posters. The top three posters will share $500 in prizes. Only students are eligible to win prizes. The poster session will take place on February 9, 2016 from 12:00 – 2:00 pm.

SUBMIT AN APPLICATION

To submit a poster, send the following information to Anne-Cécile Peras before February 1, 2016 (anne-cecile.peras@globalcare-initiative.com)
SUBMIT AN APPLICATION

To submit a poster, send the following information to Anne-Cécile Peras before February 1st, 2016 (anne-cecile.peras@globalcare-initiative.com)

Applicant information:
- First name, Last name
- University, Department
- E-mail

Presenter and Co-Authors Information, for each and if different from applicant, please provide:
- First name, Last name
- University, Department
- E-mail
- Short biography (150 words maximum)

Poster information:
- Poster title
- Keywords
- Abstract describing the poster (50 words maximum)
- Supporting summary (300 words maximum, plain-text format)

Posters must be 4’ x 4’ or smaller

REGISTER TO THE FAID CONFERENCE

Poster presenters must register to the conference; registration is free but mandatory.
Please register at http://faid2016.france-science.org/

About the French-American Innovation Days (FAID): this annual conference organized by the Office for Science and Technology of the French Embassy brings together scientists from academia and industry, entrepreneurs and investors to exchange views on science and technology issues. The goal of the conference is to facilitate the development of innovation ties between France and America.

About GLOBAL CARE Initiative: GCi is a consortium of five non-profit French research institutes dedicated to human health. The consortium operates as a one-stop-shop for life science companies and research organizations that seek R&D collaboration from basic research to the late clinical phases. The consortium has extensive experience of partnerships with major pharmaceutical, biotech and MedTech companies. The GCI members are: Pasteur MI, a component of Institut Pasteur (infectious diseases), Curie-Cancer, a component of Institut Curie (cancers), ICM (Brain and Spine Institute, CNS diseases), Voir et Entendre (Seeing and Hearing Institute, vision and audition diseases and rehabilitation) and CALYM (Consortium for the acceleration of innovation and its transfer to the field of Lymphoma).
