The University of Angers organizes 6 different Summer Schools including one called DATA AND HEALTH (24TH-28TH JUNE) and we would be happy if you could forward this information to students who might be interested.

Angers summer schools are intensive experiences which bring together young people and experts from all over the world.

The lectures, workshops, hands-on-sessions, live demonstrations and laboratory visits are all interactive and are ALL IN ENGLISH. Our DATA AND HEALTH SUMMER SCHOOL provides an overview on the various techniques in both fundamental and clinical fields.

The EUR 500 (students) / UER 700 (professionals) registration cost covers tuition, accommodation, lunches, scheduled excursions and extracurricular activities (Application received before the 16th of March, see conditions)

APPLICATION DEADLINE : **15TH APRIL 2019** - 3 European Credits Transfer System will be delivered at the end of the program.
