Ranked the number one agricultural institute in Europe and number two in the world, INRA (National Institute for Agricultural Research - France) carries out mission-oriented research for high-quality and healthy foods, competitive and sustainable agriculture and a preserved and valorised environment.

INRA is recruiting more than 50 experienced scientists proficient in designing and implementing research projects

**Experienced Research Scientists (CR1)**

These positions are open:
- either to candidates with a PhD (or equivalent) and at least 4 years’ experience in research,
- or to candidates who can justify an equivalent level of research.

The fields of research of the candidates’ projects must concern food and nutrition, agriculture or the environment

**Research Directors (DR2)**

These positions are open:
- either to candidates with a PhD (or equivalent) and at least 8 years’ experience in research,
- or to candidates who can justify an equivalent level of scientific research.

The fields of research of the candidates’ projects must concern agronomy and environment, economic, social and decision sciences, ecology, animal and plant health, animal and plant genetics and physiology, human nutrition, food safety and process engineering.

**Applications are available of June 30 to 1st September 2011.**

All useful information to apply is available on: www.international.inra.fr (see"Join us")
