To celebrate the **European Union Open House in Washington, DC** on **Saturday May 12**, the Office of Science and Technology of the **Embassy of France** has a booth **from 10:00am to 4:00pm** to present its activities. There are also scientific animations and experiments for kids (Experiments, Augmented Reality, Water Rockets, etc).

In 2012, the **German embassy is celebrating the EU Open House at the French embassy**. Both French and German scientific institutions are represented at the booth:

- **INSERM** - French National Institute for Health and Medical Research: [http://english.inserm.fr/](http://english.inserm.fr/)
- **European Space Agency**: [http://www.esa.int](http://www.esa.int)
- **German Aerospace Center**: [http://www.dlr.de/en/](http://www.dlr.de/en/)
- **Alexander von Humboldt Foundation** (German foundation for international cooperation in scientific research): [http://americanfriends-of-avh.org/](http://americanfriends-of-avh.org/)

Other departments of the **Embassy of France** will also be represented:

- **La Maison Française** (House of France) is offering the opportunity to try a “Diplomatic lunch”: [http://www.la-maison-francaise.org/EUOpenHouse.htm](http://www.la-maison-francaise.org/EUOpenHouse.htm)
- The Agriculture Department is giving a quiz on cheese and wine and some French cheese is available for tasting: [http://www.frenchfoodintheus.org/quiz/](http://www.frenchfoodintheus.org/quiz/)
- The Culture & Education Department: [http://www.frenchculture.org/](http://www.frenchculture.org/)
