The France-Berkeley Fund was established in 1993 as a partnership between the government of France and the University of California at Berkeley.

The France-Berkeley Fund (FBF) promotes scholarly exchange in all disciplines between UC Berkeley and all research centers and public institutions of higher education in France. Through its annual grant competition, the Fund provides seed-money for innovative, bi-national collaborative research. Successful projects bring together senior and junior researchers in a variety of ways, from workshops and conferences to exchanges of researchers in laboratories.

For the 2013 grant program applications from UC Berkeley, UC Davis and Lawrence Berkeley National Laboratory are eligible for the competition.
