Newsletter Chicago #11 – November 2012

Publié le lundi 19 novembre 2012
Voir en ligne : https://www.france-science.org/Newsletter-Chicago-11-November.html

Foreword

The French Science Office would like to thank all of the partners and attendees to the 2nd Annual French American Science Festival, organized in partnership with Northwestern University and the Delegation des Alliances Francaises. The festival succeeded in reuniting scientific personalities to discuss science mediation and outreach programs through the theme of sustainable development for all. Students from Chicago and the Midwest learned about a variety of science fields through hands-on experiences.

We would like to bring your attention to the Partner University Fund call for projects, in cooperation with the Embassy of France in the US and the FACE Foundation. The application deadline is on January 7, 2013.

We want to thank our readers for following our newsletter throughout this exciting year filled with important scientific news and accomplishments. Since there will be no December issue, we take this time to wish you Happy Holidays and we invite you to rejoin us next January as we embark on a new year together.

Enjoy your read!

Adèle Martial, Scientific attaché
Cécile Camerlynck, Deputy scientific attaché
