View online: https://www.france-science.org/Full-time-or-Part-time-Professor.html

The Chemistry Department at the Ecole Polytechnique wishes to recruit a candidate at Full Professor level on a full or part time basis. The candidate should be an internationally recognized expert within their field who is willing to transfer and establish a significant research activity to one of the molecular chemistry laboratories of the Ecole polytechnique. In this respect, preference will be given to candidates with expertise in biological chemistry, inorganic chemistry or physical chemistry.

The successful candidate will be required to undertake a leadership role within the Chemistry Department, and in addition to his/her own research, will be responsible for the organization and delivery of lectures to students in all years at the Ecole Polytechnique (advanced undergraduate and graduate level). Significant prior teaching experience will be an advantage since the Ecole Polytechnique wishes to extend the teaching of Chemistry to a larger body of students and to reinforce the links between the teaching department and the research laboratories.

- Submission Deadline: June 30, 2013 midnight Paris time (GMT+1)
- Position Start Date: September 1, 2013
