This program from the French National Research Agency (ANR) aims at accompanying research projects jointly led by public research institutions and enterprises. It encourages the integration of eminent French (expatriated or not) or foreign professors into higher education and research institutions, or research organisations, and reinforcing the best initiatives developed in French higher education and research.

The program implies establishing a strong and lasting partnership between the research institution and enterprises in a high priority and strategic area for the parties concerned. The aim is to provide more effective support to industrial research in all areas. The industrial chairs’ objective is firstly to perform fundamental and applied research, and secondly to ensure training through high-level research.

Researchers from all disciplines can submit a project on any topic they choose.

Deadline for submission of proposals: Thursday January 29, 2015
