Destination Europe Conference – February 20, 2015 – Boston, MA

Published on Thursday February 12, 2015
View online: https://www.france-science.org/Destination-Europe-Conference,2903.html

- Where: Taj Hotel, 15 Arlington Street, Boston MA 02116 USA (Map)
- When: Friday February 20, 2015, from 8AM to 6:00PM

Destination Europe events showcase the vibrant and exciting research and innovation culture in Europe and the opportunities available to researchers, from anywhere in the world, interested in working there or cooperating with European researchers. Destination Europe is a joint initiative of the European Union and its Member States.

Come to the Destination Europe event in Boston, to meet:

- Experts from European research organisations, funding agencies and European Commission services who will present programmes, initiatives and excellent institutions.

- Researchers who have had the experience of moving to Europe temporarily or permanently and who will share their experience with you

- Information about the practicalities of moving to Europe (scientific visa, mobility centres etc.)

- An exhibition space to provide additional information

Opportunities in France: Land of Innovation and Scientific Excellence

France offers opportunities for both young and experienced researchers to work or lead teams in laboratories, universities and national research institutions and enjoy the French “art de vivre.” The landscape for innovation and technology transfer has been transformed in recent years thanks to a National Investment Plan to increase the visibility and efficiency of these fields. The situation in France is particularly favourable for scientists and entrepreneurs looking to establish themselves within strong national, European and international networks.

Speakers for France:

- Minh-Hà Pham, Counselor for Science and Technology, Embassy of France to the United States
- Jean-Jacques Yarmoff, Attaché for Science and Innovation, Consulate General of France in Boston
- Dr. Mireille GUYADER, Director of the National Institute for Health and Medical Research (Inserm) Office in the United States
- Manon Dirand, Deputy Nuclear Counsellor, Alternative Energies and Atomic Energy Commission (CEA) Representative
