Located in Paris and founded by Louis Pasteur in 1887, the Institut Pasteur is one of the world’s leading private nonprofit centers for scientific research including immunology, molecular biology, and the neurosciences. Comprised of a multi-national team of scientists, the Institut Pasteur’s 132 research labs are devoted to basic scientific research, with the goal of improving health globally.

Three-year fellowship positions are open to U.S. citizens wishing to work in one of the laboratories of the Institut Pasteur.

Interested and qualified applicants are advised to contact the head of an IP laboratory in which they would like to carry out their research. The list of the different IP laboratories, including a description of their research activities, is available at the following web address http://www.pasteur.fr/en/research/all-lab-heads

Gross salary is approximately 3,750 € per month. Benefits, including national health care and health insurance, will cost net monthly 25% of salary. In addition to this stipend, bench fees (around 25,000 euros over three years) are allocated to the host lab in support of your activities.

The application deadline is September 10, 2015, 12pm EST.
