The 2015 call for proposals for Marie Skłodowska-Curie Actions (MSCA) has been launched. These individual fellowships offer researchers of any nationality the opportunity to move abroad, within Europe and worldwide. Only experienced researchers (post-doc and beyond) are eligible, for periods of one or two years. The second program offers co-funding regional, national and international programs managed in Europe for research training and career development.

- **Individual Fellowships** provide opportunities to acquire and transfer new knowledge and to work on research in a European context (EU Member States and Associated Countries) or outside Europe. The scheme particularly supports the return and reintegration of researchers from outside Europe who have previously worked here. It also develops or helps to restart the careers of individual researchers that show great potential, considering their experience.

The goal of Individual Fellowships is to enhance the creative and innovative potential of experienced researchers wishing to diversify their individual competence in terms of skill acquisition at multi- or interdisciplinary level through advanced training, international and intersectoral mobility.

**Deadline: September 10, 2015.**

- **COFUND - Co-funding of regional, national and International Programs** scheme aims at stimulating regional, national or international programmes to foster excellence in researchers’ training, mobility and career development, spreading the best practices of Marie Skłodowska-Curie actions. This will be achieved by co-funding new or existing regional, national, and international programmes to open up to, and provide for, international, intersectoral and interdisciplinary research training, as well as transnational and cross-sectoral mobility of researchers at all stages of their career.

**Deadline: October 1, 2015**
