The Department of Homeland Security (DHS) Science and Technology (S&T) Directorate is soliciting applications for international research projects aligned with the mission and requirements of DHS S&T. These projects should be designed to augment and complement, through international research and collaboration, the depth and breadth of homeland security science and technology research.

Specifically, the S&T Directorate seeks proposals that will contribute to homeland security science and technology, including but not limited to:

- evaluation of novel tools or approaches to confronting homeland security challenges;
- Basic research to provide data, understandings, or models that support S&T efforts or policy decisions; and
- S&T and operations research evaluations to support revolutionary improvements in DHS’s mission and its component agencies’ operations.
