After 70 monthly newsletters, the Office for Science and Technology in Los Angeles is changing the format of its newsletter.

From this point forward, you can receive:

- **News from the Office for Science and Technology in Los Angeles (in English)**: The list of past and upcoming French-American Scientific Events and News in Southern California.

- **La Lettre d'information – Sciences de la Vie (in French)**: A monthly bulletin summing up the developments in the world of life sciences in the United States, which are covered in our office’s Science Watch.
