- **What:** Café des Entrepreneurs #13
  - French-speaking event followed by networking
- **Registration**

Join us at the MIT!
- To hear from the experience of a successful French entrepreneur about how to make it in the US
- To meet 6 of the most promising French startups which are laureates of the 2016 edition of the NEw Technology Venture Accelerator (NETVA) program
- To meet some young French entrepreneurs awarded by the MIT Technology Review "MIT 2016 Innovators Under 35"
- … and for networking!

The Café des Entrepreneurs is an event organized every two months in Boston where several guests, an entrepreneur and one or several elevator pitches, are interviewed by a moderator and answer the questions of the audience. It also an opportunity to network and exchange for francophile and francophone entrepreneurs, investors and professionals based in New-England.

Created in 2013 by a team of French business partners based in Boston (Consulate, FACCNE, CCEF, French Tech Hub), the Café des Entrepreneurs aims at sharing one’s experience, stimulating new career prospects and promoting closer ties between the business actors of the New-England ecosystem.

**About NETVA**

The NEw Technology Venture Accelerator (NETVA) aims at building the global leadership of the French High-Tech Start-ups through an intensive entrepreneurial training and business development week in Massachusetts (Boston), Silicon Valley (San Francisco), or Greater Washington (Washington, DC).
NETVA is supported by a group of trustful partners highly integrated in the French and American Entrepreneurial ecosystems: the Institute for Technology Entrepreneurship and Commercialization at Boston University (ITEC), RETIS Innovation (The French network for Innovation and Entrepreneurship, RETIS), the Massachussets Office for International Trade and Investment (MOITI), the French American Chamber of Commerce in Boston (FACCNE).
