The France-Stanford Center for Interdisciplinary Studies, founded in partnership with the French Ministry of Foreign Affairs, aims to bridge the disciplines of the Humanities, Social Sciences, Sciences, Engineering, Business and Law, addressing historical and contemporary issues of significance for France and the United States from a broad range of perspectives.

The Center brings faculty and students from across Stanford’s departments and schools together and into contact with colleagues in France, to explore issues of common intellectual concern, to advance collaborative research, and to foster interdisciplinary inquiry.

The France-Stanford Center sponsors high quality collaborative research projects likely to foster new linkages and deepen existing connections between French scholars and students and their counterparts at Stanford University.
