For ten years, student exchanges between ISAE-SUPAERO and Georgia Tech have allowed future researchers to develop their network in France and the United States, thus promoting collaborations across the Atlantic. In an effort to structure their partnership, the two institutions signed a partnership agreement in 2016 integrating research collaborations, faculty exchanges, joint seminars and symposiums on innovation.

(Interview in French)

During France-Atlanta 2017, Olivier Lesbre, President of ISAE-SUPAERO, and his management team, participated in a roundtable along with the Dean of the College of Computing, the Director of Global Internship Program & International Plan Georgia Tech, students and researchers and professors at the Georgia Tech School of Aerospace and Engineering. They shared their experiences, their visions of aerospace innovation and the future of higher education, whose curricula must adapt to the demands of the aerospace industry.

About France-Atlanta:
France-Atlanta is an annual series of events designed to foster cooperation around innovation between France and the U.S. Southeast in the fields of science, business, culture, and humanitarian affairs. Created in 2010 by the French Consulate General and the Georgia Institute of Technology, the 8th annual France-Atlanta will take place October 9 - November 3, 2017, offering symposia, workshops, performances, exhibitions, conferences, films, and more. www.france-atlanta.org
