The Cancer Research Center of Lyon is pleased to announce that the fourth edition of its International Symposium will take place from the 2nd to the 4th of October, 2019, in the Convention Center of Lyon, France.

The aim of the International Symposium of the CRCL is to address fundamental issues in cancer biology from the molecular and biochemical determinants of cancer initiation and dissemination, to the impact of the tumor microenvironment and immunity, and to emphasize the synergy between basic, clinical, and translational research. This meeting will also address how tumor cell plasticity contributes to enhancing tumor heterogeneity, sustaining metastatic dissemination and escape from conventional and targeted therapies.

Scientific Topics :

This fourth edition will cover the following topics :

1. Stem cells and cancer cell plasticity,
2. Tumor microenvironment and immunity,
3. Ribosomes and cancer,
4. Cancer genetics - Gilles Thomas' Symposium

Confirmed International Speakers

Thomas Brabletz (Germany), Michael F Clarke (USA), Michele De Palma (Switzerland), Frederic De Sauvage (USA), Scott Lowe (USA), Martin McMahon (USA), Jane Visvader (Australia), Robert Weinberg - Keynote lecture (USA), Max S Wicha (USA), Ada Yonath - Keynote lecture (Nobel Prize winner in Chemistry 2009, Israel).

We invite you to join us and are looking forward to receiving your scientific contributions and to meeting you in Lyon !
