Eiffel

The French Ministry of Foreign and European Affairs launched the Eiffel excellence scholarship programme in January 1999 to support French centres of higher education in their international outreach initiatives to attract elite students from overseas. In 2005, the scheme was extended with the Eiffel Doctorate programme, addressing high-calibre PhD students. For greater clarity, the French Ministry of Foreign and European Affairs is now introducing a single application procedure for its Eiffel Scholarship and Eiffel Doctorate Scholarship programmes.

The new Eiffel programme thus covers two types of course:

Master's postgraduate degree course;

Ten-month co-tutored or co-managed component (preferably second or third year) of PhD course.

The main objective of the Eiffel excellence programme is to offer French higher-education opportunities for future decision-makers in three priority areas: science; economics & management; and law & political science.
