Inria is a French public research body with **eight research centers** dedicated to computational sciences. Combining computer sciences with mathematics, Inria's 3,449 researchers strive to invent the digital technologies of the future.

In 2015, Inria is offering:

- 15 young graduate engineers in research and development positions, intended for recent graduates with a maximum of one year of experience.
- 15 engineers in research and development positions, intended for engineers with at least 2 years of experience.
- 71 PhD student positions

For more job offers, you can visit <http://www.inria.fr/en/institute/recruitment/offers>

Deadline to apply is **mid June, 2015**.
