

## Café des Sciences in Los Angeles, CA with Jeremie Vitte and Pierre Del Moral – March 15, 2016

Published on Wednesday February 17, 2016

View online : <https://www.france-science.org/Cafe-des-Sciences-in-Los-Angeles,8519.html>

In the United States, it can take nearly twelve years for a molecule developed in the laboratory to arrive on the shelves of your local pharmacy. What exactly happens in the laboratory? How are modern medications developed and commercialized?

To find out the answers to these questions, the Alliance Française of Los Angeles and the Office of Science and Technology of the Consulate General of France in Los Angeles invite you to follow the journeys molecules take from the test tube to the pill bottle by attending the **Café des Sciences** on **Tuesday March 15, 2016 at 7pm**. Jeremie Vitte, researcher at UCLA, and Pierre Del Moral of the Roches Diagnostics laboratory will be presenting:

« The fate of a pill: from invention to market the U.S »

ALLIANCE FRANÇAISE DE LOS ANGELES  
& THE OFFICE FOR SCIENCE AND TECHNOLOGY OF THE CONSULATE GENERAL OF  
FRANCE IN LOS ANGELES

PRESENT A CONFERENCE

THE FATE OF A PILL: FROM INVENTION TO MARKET THE U.S.

Dr. Jeremie Vitte, PhD UCLA and Dr. Pierre Del Moral, Roche Pharmaceuticals

TUESDAY, MARCH 15<sup>th</sup> AT 7: 00 PM
