The Night of Ideas is coming to L.A. Featuring leading thinkers and artists from around the world, this all-night marathon of intellectual debates, performances, screenings, readings, and music, will explore the notion of UTOPIAS, past, present and future from across the fields of knowledge including science.

Join us and be a part of this FREE 7-HOUR EXCHANGE OF IDEAS, featuring leading thinkers from around the world!

Two science sessions will take place with french and american top-notch scientists:

### CAN NANOTECHNOLOGY BE A REALISTIC UTOPIA?

with François Berger & Michael Roukes, mod. Vanessa Nurock

### UTOPIAS: SCIENCE OF FICTION?

with Gary Prezeau & Varoujan Gorjian
