Imagine is an interdisciplinary research center in molecular medicine in the Necker Enfants-Malades University Hospital campus. Imagine offers cutting-edge research facilities with excellent core facilities for genomics, cell imaging, flow cytometry, bioinformatics, pathophysiology and animal housing for transgenic mice and zebra fish.

Imagine offers PhD fellowships open to international recruitment of highly motivated and talented students. These students will work in a well-funded Institute, with up-to-date facilities and in a stimulating scientific environment. The Institute is currently composed of 410 staff members from 25 labs and 3 associated labs.

The training program, supported by funds of the Bettencourt Schueller Foundation, presents opportunities in **genetics, immunology, infectious diseases, haematology, nephrology, developmental defects, metabolic diseases/encephalopathy, dermatology and gastroenterology** within the 25 research groups of Imagine and 3 associated labs.

To apply, visit Imagine's website: **[An International PhD Program at Imagine 2017](#)**

Application deadline: **April 21, 2017**
