

Application and Funding

The French-American Doctoral Exchange on Ocean and Climate (FADEX-O) is organised in partnership with the Scripps Institution of Oceanography (UC San Diego). **We welcome all applications of PhD students enrolled at Scripps**

Deadline for applications extended to June 26 at midnight (Pacific Time). Ten students will be chosen to participate in the program and a grant will be offered by the Office for Science and Technology and its partners to cover a round trip ticket to Paris, travel within France, accommodations and meals. French citizens are not eligible. The selection will be based on the scientific excellence of the candidate, their motivation and the maturity of their project.

To apply:

The call for application is now closed.

(Please note that the call for applications for French Ph.D. students will be published later. All the information for French students are available on the [French version of this article](#).)
